Allowable Subject Matter

Applicant's arguments filed 4/12/2005 with respect to claims 1 and 29 have been fully considered and found persuasive. Thus, claims 1, 4, 6-19, 23-29,32, 34-41 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 29 recite a superconductor flux pump comprises the secondary side coil of the transformer includes superconductor material with high critical temperature, and at least two controllable switches in the secondary side rectifier circuit, wherein each of the at least two controllable switches includes a plurality of MOSFETs electrically connected in parallel to one each other, and wherein the MOSFETs are arranged on a base plate of a relatively high thermally conducting material. The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Danny Nguyen whose telephone number is (571)-272-2054. The examiner can normally be reached on Mon to Fri 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571)-272-2058. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
